“Lawyers can complicate and delay Transactions - not if its team Sarvaank. Worked with Yash Vardhan and Team over last 3 transactions and found them solution oriented with quick TaTs and incisive inputs. While safeguarding Investor interest as their counsel, their participation process makes founders like me bank upon their advice. Mark of their subject matter command - enjoyed throwing challenges at them to show case laws and references and always got great reverts. Their approach has been super helpful in making the Investment Transactions smoother. Sarvaank is a breath of fresh air in the rough and wild world of heady lawyers.”
